REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art of record does not provide for, nor suggests providing for a system which allows a first computer to proxy browse for another device by selecting a digital video file, causing a server to download the file, and then play the video file on the electronic appliance. The proxy browser transmits a command for which the server is to download a digital video file from the server to the appliance. The system also allows a game configuration file to be transmitted to a toy, and an audio file to be downloaded to an internet speaker. The system is able to transmit the file without confirmation of the IP address of the component is able to transmit the command without verification by the proxy browser program. The files which can be downloaded are shown on page 19. The appliance is able to receive the file from the proxy browser and is downloaded without verification from the appliance. For these reasons, in conjunction with the decision by the Board of Patent Appeals and Interferences, dated October 27, 2005, and further in conjunction with the other limitations of the independent claims, render this claim allowable

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
